formation.

1872.

CIRCULAR TO THE HARDWARE TRADE.

We have much pleasure in presenting to the Hardware Trade of Canada our illustrated and descriptive Catalogue and Price List for 1872, to which we beg to call their careful attention. Some valuable additions have been made to its pages, and the prices carefully revised.

The goods of our own manufacture, being much improved in quality and finish are quite equal to any imported from the United States, and are much lower in price.

We can execute all orders promptly, having lately made considerable additions to our works.

We still continue to supply at lowest market prices other Goods of Canadian Manufacture, such as Axles, Springs, Belting, Packing, Hose, Hinges, Rivets, Halifax Skates, &c.

We beg to solicit orders, for importation direct, for Messrs. T. Jowitt & Son's Files and Steel, Messrs. A. Beckett & Son's Saws and Edge Tools; also for other English and Foreign Hardware for which we are Agents.

In ordering please give number and full description of article from this Catalogue.

All orders, unless by previous contract, will be filled at prices ruling at date of invoice.

Prices are subject to changes without notification, and all former Lists are hereby cancelled.

ST, PAUL'S NAIL WORKS.

DUNN'S IMPROVED HORSE SHOE NAILS

POINTED, FINISHED, HARDENED AND READY FOR DRIVING.

These HORSE SHOE NAILS like Dodges, (also manufactured at our Works,) are made from the very best CHARCOAL NORWAY NAIL RODS, and from the peculiar mode of manufacture *the Iron can never be injured by over heating during the Process.*

The points are HAMMERED up and BEVILLED, and the heads prepared in the best possible shape for driving, thus saving a great amount of labor to the Farrier.

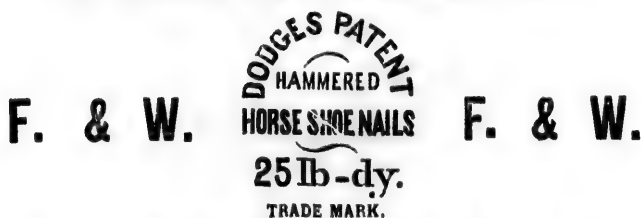

These Nails are warranted to hold a Shoe longer and firmer than any other, whether HAND or MACHINE MADE, as they are left very stiff in the neck and are consequently less liable to wear in the hole and allow the Shoe to get loose. They are warranted to give entire satisfaction.

To prevent imposition, each box will be stamped with our address in full, and REGISTERED TRADE MARK as above, *without which none are genuine.*

They are put up in boxes of 25 lbs.

All sizes from 6 to 10 lbs., kept constantly in stock at the following prices:

6,	7,	8,	9,	10 lbs.
30,	23,	22,	21,	21 cents per lb.

ST. PAULS NAIL WORKS.—*Continued.***DODGE'S PATENT HAMMERED HORSE SHOE NAILS.**

These *Horse Nails* are also manufactured at our Works, from *best rolled NORWAY RODS*, imported specially for this purpose, and are confidently recommended to the **HARDWARE TRADE**, as being the best Nails ever offered in this Market.

To prevent imposition, each box will be stamped with our address in full and **REGISTERED TRADE MARK** as above, *without which none are genuine.*

They are put up in boxes of 25 lbs.

All sizes from 5 to 12 lbs. kept constantly in stock at the following prices :

5	6	7	8	9	10	11	12 lbs.
30	25	20	19	18	18	18	18 cents per lb.

These Nails measure to weight as follows, viz:—

5	6	7	8	9	10	11	12 lbs.
1 $\frac{3}{4}$	2	2 $\frac{1}{8}$	2 $\frac{1}{4}$	2 $\frac{3}{8}$	2 $\frac{1}{2}$	2 $\frac{5}{8}$	2 $\frac{3}{4}$ inch.

When ordering Circular Saws give the following particulars.

Diameter of Saws.

Gauge at Edge and also at center if required thicker.

Rip or Cross Cut.

Right or left hand saw.

Give the log side of a Circular saw as you stand in front of it cutting towards you, stating on which side the log or bolt is.

If a Shingle Saw is required, state the distance from center at which the taper commences, and send exact draft, showing position and size of rivet holes for attaching flange.

Shingle Saws, and Endless Band Saws, to order.

Orders for importation of Saws direct solicited.

N. B.—All first quality Saws will be stamped,—

ALFRED BECKETT & SONS.

In addition to which they will  have our own registered trade mark, thus ;  and all Goods so stamped are

warranted equal to the best made.

The Mill and Circular Saws are tempered specially to suit the climate of Canada. We can therefore with confidence recommend them.

Also, Stone's Patent Circular Saw Gummers.

Price per set, 1-16 to $\frac{3}{8}$ inch, boxed, \$2.80.

These Bit Stock Drills will fit all the braces now in the market, and will drill Steel, Iron, or other Metals, as well as Wood. For Carriage Makers, Pattern and Model Makers, and, in fact, for all Workers in Wood, they are unsurpassed, as they sustain no injury by boring against screws or nails, and will bore any kind of Wood without splitting with greater rapidity than the ordinary Bit or Gimlet.

All sizes from 1-16 to $\frac{3}{8}$ in. kept in stock.—They vary in length from $3\frac{1}{2}$ to 7 inches (over all) according to size.

PATENT TWIST DRILL GRINDING MACHINES.

No. 1, for grinding Drills of sizes below one half inch. Price,....\$10.00

No. 2, for sizes varying from three-eighths to two inches. Price,..\$20.00

Extra rests for grinding left hand Drills, furnished for \$2.50 and....\$5.00

By removing the rest, the Machine may be used for an Emery Grinder.

Extra Wheels furnished at the lowest rates. See list on page 53

CENTERING MACHINES, &c., &c.**

CUSHMANS UNIVERSAL HOLLOW AUGERS.

Price \$6.00 each.

Will cut any size tenon, from 3-8 to 1 1-2 inch, working equally
well for every size.

(See cut at end of this Book.)

ALSO IMPORTED TO ORDER

BROWN & SHARP'S MACHINES & TOOLS, viz:

MILLING MACHINES, Universal, Plain, &c. SCREW MACHINES, Slotting and
TAPPING MACHINES, Die Holders, Friction Clutch Pulleys, Pulleys for
OVERHEAD WORK, CUTTERS for GEAR WHEELS. WATCH CLOCKS for FACTORIES,
&c., &c.—Price lists furnished.

THE GODDARD SOLID EMERY WHEEL.

These Wheels are entirely free from any *offensive smell*, will not *glaze or heat*, cut faster than any other wheels, and will not burst at any ordinary rate of speed.—They are the best in the market. In all cases they should be run with *Flanges* and *should not be forced upon the arbor*.

They can be had of assorted numbers of Emery, viz :—from No. 3 to 120 and Flour.

PATENT EMERY GRINDERS, designed expressly for running the solid Emery Wheels, are made in three sizes viz :—

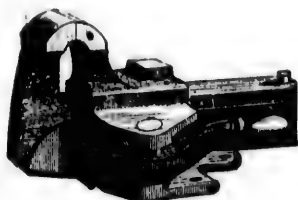

No. 1 for wheels 2 to 10 inch in diameter by $\frac{1}{4}$ to 2 inch face.

No. 2 for wheels 4 to 16 inch diameter by $\frac{1}{2}$ to 3 inch face.

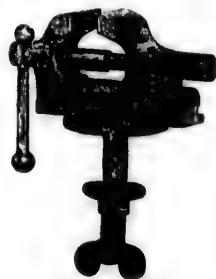

No. 3 is a heavy machine and will run wheels 10 to 24 inch diameter by $\frac{1}{2}$ to 4 inch face.

DIAMOND TOOLS for truing Emery Wheels.....\$15.00 each.

PARALLEL VICES.

STEPHENS VICE.

BACKUS VICE.

STEPHENS PATENT PARALLEL VICES.

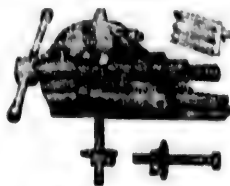

These are made on a new principle, *with a lever and toggle*—and are recommended as first class vices.

Width of jaw, ...	2 $\frac{3}{4}$,	3 $\frac{1}{2}$,	4 $\frac{1}{2}$ inches.
Price without swivel, ...	\$5.50	9.00	\$12.50 each.
Price with swivel, ...	6.50	10.50	14.50 "

BACKUS PATENT PARALLEL VICES.

The jaws of these vices are faced with Hardened Steel, welded to Iron. This is one of the best tools in the market.

Width of Jaw,	3,	3 $\frac{1}{2}$,	4,	4 $\frac{1}{2}$,	5 inches.
Price without seat,	\$7.50	9.50	10.75	13.00	\$17.50 each.
Price with seat	8.50	10.50	12.00	14.50	19.00 "

PATENT PIPE VICES.

These vices have an extra jaw, with corrugated grooves, by which pipes of any size may be firmly held without injury to them. The *Extra Jaw* may be removed in a moment when the vice is wanted for other work.

Prices, ...	1 $\frac{1}{2}$,	4,	5,	8 inches.
	\$5.00	17.50	23.00	\$33.00 each.

NAGLES PATENT EXPANDING MANDRELS, viz:

NUT AND PLAIN MANDRELS—17 sizes: from $\frac{1}{8}$ to 1 in., by sixteenths of an inch; from 1 in. to 2 in. by eighths of an inch. Prices from \$2.50 to \$13.00 each.

These Mandrels are made entirely of Steel and are first class articles.

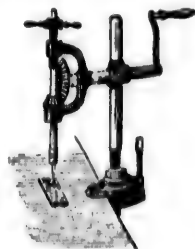

In ordering them, state distinctly the size and length of shell: and for nut Mandrels, also the number of threads per inch, and form of thread.

Price Lists and other information supplied on application to us.

CRUTCHLEYS PATENT EXPANDING TOOLS for Reaming, Drilling, Boring, and Tapping, 12 sizes, $\frac{3}{4}$ to 4 $\frac{1}{8}$ inch.

DUDGEONS TUBE EXPANDER, 16 sizes, 1 to 7 inch.

CHRISTOFFELS PATENT TUBE SCRAPER, assorted sizes, 2 to 6 inches.

HOLLAND & CODY'S**PATENT UNIVERSAL ANGULAR DRILLING MACHINES.**

- | | |
|--|---------|
| No. 1, Upright Shaft, 1 $\frac{1}{2}$ inch in diameter, 20 inch long, weighs 25 lbs., will drill a $\frac{1}{2}$ inch hole..... | \$34.00 |
| " 2, Upright Shaft, 1 $\frac{1}{2}$ inch in diameter 24 inch long, weighs 40 lbs., will drill a $\frac{3}{4}$ inch hole..... | 33.00 |
| " 3, Upright Shaft, 2 inch in diameter, 27 inch long, weighs 91 lbs., will drill a 1 $\frac{1}{8}$ inch hole, geared back, $\frac{1}{2}$ | 65.00 |
| " 4, Upright Shaft, same size as No. 2, geared back $\frac{1}{2}$, so as to drill an inch hole | 38.00 |

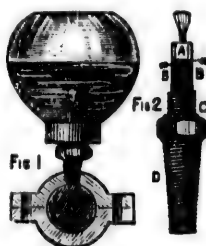

The Patent Angular Drilling Machine is one of the most simple and useful inventions of the age.

It is the only tool that will drill or bore holes at any conceivable angle and is superior to any hand or light power drill in use.

These Machines are invaluable to all persons using *Twist Drills*.

FITCHBURG MACHINE COMPANY,

MANUFACTURERS OF

IMPROVED MACHINISTS TOOLS, &c.,

We are Agents for, and import to order at Manufacturers prices, the Tools manufactured by this Company, consisting in part of the following, viz :

ENGINE LATHES, 17 sizes, to turn from 3 feet 6 to 13 feet.

HAND LATHES, 6 sizes, 3 feet to 10 feet Bed.

SPEED LATHES, one size.

CHUCKING LATHES, 4 sizes.

PATTERN MAKERS LATHES, of various lengths of Bed.

CAR AXLE LATHE, 11 feet Bed, &c., &c.

SLIDE OR COMPOUND VEE 3 sizes, 8, 12 and 16 inches.

STRAIGHTENING MACHINES, 4 sizes, No. 1 for Shafts to 3 inches, No. 2 for Shafts to 5 inches.

IRON PLANERS, 21 sizes, from 5 feet $\times$ 22 $\times$ 21 in. to 24 feet $\times$ 50 $\times$ 48 inches.

PLANER CENTER, with Circular index, 10, 16, 24 inches.

WARRENS PAT. PLANER CHUCKS, 4 sizes, 10, 12, 15, 18 inches.

MILLING MACHINES, designed for Sewing Machine Work, &c.

MERRIMANS PATENT BOLT CUTTERS, 3 sizes, No. 1, 2, 3.

SHAPING MACHINES, 3 sizes, Nos. 1, 2, 3.

UPRIGHT DRILLS, 6 sizes Nos. 0 to 5.

TRANSVERSE DRILLS, 2 sizes, Nos. 1 and 2.

HORIZONTAL BORING MILLS, 3 sizes, 12, 14 and 16 feet Bed.

WILDERS PATENT SHEARING MACHINES FOR WOOLLEN FACTORIES, 7 sizes, to shear from 40 inch. to 34 inch., with 9 to 16 Cutters. Prices \$160.00 to \$300.00.

All the above Machines and Tools, are of the latest and most improved kind and are warranted to give entire satisfaction. PRICE LISTS and other information supplied on application to us.

Gray & Wood's Patent Dimension Planer for Truing out Timber,
Plank or Boards.

N. B.—A small charge is made for Packing or Boxing these
Machines.

These Machines are the very best made; warranted to give entire
satisfaction. They have been exhibited at several Fairs (*eleven*) in the
United States, never failing in a single instance to take the highest pre-
miums. We have sold several of them to parties in this city and elsewhere
to whom we can refer for testimonials, if required.

All orders must be addressed to us.

FOOT MORTISING MACHINES.

COMPLETE WITH 3 CHISELS $\frac{3}{4}$ TO $\frac{5}{8}$ INCH.

Price \$16.00 and \$20.00 each.

These machines are well made, having the face plates planed up,
and all the bearings and joints carefully fitted.

WAREHOUSE TRUCKS.

HALF IRONED.

No. 1, \$6.00

No. 2, \$7.00 each.

FULL IRONED.

STANDARD REVOLVERS.

POCKET SIZE.

This Revolver is made on SMITH & WESSONS pattern, has *plated* Frame and is neatly mounted. It is a very superior 7 shot Pistol, the Cylinder is longer than that of any other 22-Calibre Revolver, permitting the use, if desired, of the 22 long Cartridge, which renders it the *most effective* 22 Calibre Revolver made.

The Stop and the Stop Spring are under the Cylinder, and are not likely to get out of order.

The Centre-Pin extends through the Cylinder, so that the Cylinder revolves with ease and steadiness.

If desired, the *stop* holds the Cylinder *firmly*, with the hammer resting between the cartridges, rendering it safe for the pocket.

The weight is as light as is consistent with perfect safety, durability and steadiness of aim. Price \$10.00.

IMPROVED

WROUGHT IRON LONDON PATTERN PULLEY BLOCKS.

Special attention is called to the improvement in these Blocks, each plate forms a support for the centre shaft & files protecting the pulley from damage, and thus combining strength with durability; they are made of best refined iron; we can therefore with confidence recommend them.

WROUGHT IRON PULLEY BLOCKS.

For Rops of Sizes given.

Single or 1 Sheave Blocks.

$\frac{1}{2}$ in.	$\frac{5}{8}$	$\frac{3}{4}$	$\frac{7}{8}$	1	$1\frac{1}{4}$	$1\frac{1}{2}$	$1\frac{3}{4}$	2	$2\frac{1}{2}$ inch.
\$1.70	2.00	2.40	3.00	4.00	5.50	7.00	9.00	13.00	21.00 each.

Double or 2 Sheave Blocks.

$\frac{1}{2}$ in.	$\frac{5}{8}$	$\frac{3}{4}$	$\frac{7}{8}$	1	$1\frac{1}{4}$	$1\frac{1}{2}$	$1\frac{3}{4}$	2	$2\frac{1}{2}$ inch.
\$2.50	2.80	3.50	4.50	6.00	8.00	11.00	15.00	21.00	30.00 each

3 Sheave Pulley Blocks.

$\frac{5}{8}$ in.	$\frac{3}{4}$	$\frac{7}{8}$	1	$1\frac{1}{4}$	$1\frac{1}{2}$	$1\frac{3}{4}$	2	$2\frac{1}{2}$ inch.
\$3.25	4.50	6.00	7.50	10.00	13.50	21.00	30.00	50.00 each.

4 Sheave Pulley Blocks.

$\frac{5}{8}$	$\frac{3}{4}$	$\frac{7}{8}$	1	$1\frac{1}{4}$	$1\frac{1}{2}$	$1\frac{3}{4}$	2	inch.
\$4.50	5.50	7.00	9.50	13.50	20.00	30.00	50.00	each.

SNATCH BLOCKS

$\frac{3}{4}$ in.	$\frac{7}{8}$	1	$1\frac{1}{4}$	$1\frac{1}{2}$	$1\frac{3}{4}$	2	inch.
\$3.00	4.00	5.00	6.50	8.50	12.50	22.50	each

N.B.—The $1\frac{1}{4}$ $1\frac{1}{2}$ $1\frac{3}{4}$ 2 $2\frac{1}{2}$ inch. Pulley Blocks, will take Coil Chain of $\frac{1}{2}$, 5-16, $\frac{3}{8}$, 7-16, $\frac{1}{2}$, 9-16, inch.

GIN BLOCKS OR RUBBISH PULLEYS.

6 in.	7	8	10	12	14	16	18	in diameter of wheel.
\$3.00	3.30	3.75	4.50	5.00	6.00	7.50	9.00	each.

PATENT DIFFERENTIAL PULLEY BLOCKS.

WITH 40 FEET BEST CHAIN TO EACH.

These are worked by pulling at the Chain.

Prices, tested to 5 cwt.	10	20	30	40 cwt.
	\$11.00	15.00	20.00	24.00 27.50 each.
Extra Chain	12½c	13½c	20c	25c 27½c per foot.

The peculiar merit attached to these Pulleys is, that while they are more powerful than the ordinary pulley Blocks, they also possess the novel and invaluable quality of not "running down," under any circumstances, whilst the load is suspended to them. Wherever weights have to be lifted, this hoisting tackle WILL BE FOUND INVALUABLE.

HARDCASTLES PATENT, DIFFERENTIAL PULLEY BLOCKS.

AND

EADES PATENT EPICYCLOIDAL PULLEY BLOCKS.

Imported to order.

SHALERS' PATENT BALANCES OR FAMILY SCALES.

With Tin Scoops Capacity, 12 lbs
 " " " " 25 lbs

 Illustrated Catalogues of all the above Scales with full descriptions and prices affixed,
 furnished post free on application to us.

PRICE \$5.00, Each.

These money Drawers are invaluable to Cashiers, Shop keepers, and others who have the handling of money. They are very convenient and simple in their construction, they are perfectly safe, as the lock is susceptible of thirty (30) changes, "and is so ingeniously constructed that, if an unsuccessful attempt is made to open it, it rings a Bell, and *instantly locks itself*, so that the key or keys upon which it is set *will not unlock it*, until a new movement is made by the fingers;" a very valuable improvement, as it prevents thieves from reaching the changes through, should the Drawer be left alone for a considerable time.

C. D. EDWARDS' PATENT SALAMANDER SAFES.

DOUBLE FLANGE SINGLE AND DOUBLE DOOR SAFES WITH POWDER PROOF LOCKS.

Price lists on application to us.

SAFETY FUSE.

TOY, BICKFORD & CO'S PATENT SAFETY FUSE.

 " " in Canisters **FF** in $\frac{1}{2}$ lb. and 1 lb.
 " " " **FFF** in $\frac{1}{2}$ lb. and 1 lb.
 Blasting Powder in Kegs.

WEST CUMBERLAND HEMATITE IRON.

We have been appointed Sole agents in Canada for the WEST CUMBERLAND HEMATITE IRON COMPANY of England, and are prepared to offer at low prices the following, viz :—

HEMATITE PIG IRON No. 3.

" " " No. 1.

This Pig Iron is very strong and is peculiarly adapted for Machinery Castings and other purposes, where great strength is required. The No. 3 mixes well with Scotch Iron, increasing the strength of the latter and otherwise improving its quality.

BEST REFINED BOILER PLATES ASSORTED LENGTHS AND THICKNESSES.

These Boiler Plates are very superior and will be found much better than the brands generally sold in this market.

All orders must be addressed to us.

BEST COLD ROLLED CANADA PLATES.

We will be prepared during the present year, to supply our numerous customers with the above celebrated brand of Canada Plates having purchased the entire make, for several years to come, from the manufacturer. These plates were first introduced by us five years ago, and sold extensively to the trade and consumers; they are without doubt, the best and cheapest Cold Rolled Canada Plates ever offered for sale in Canada. They gave entire satisfaction to all those who used them, and we are prepared to warrant them to do so for the future. The price will be very low, quality considered. We have to request our friends and customers to send us their orders for them in good season, so that they may be booked, and delivery secured at such dates as they may please to indicate.

These Canada Plates are made correctly to size and the Boxes warranted to contain, exclusive of the covers, 50 sheets, many of which are polished. Each box will be stamped with our registered trade mark, as above, without which none are genuine.

ALSO :

Boiler and Kettle Bottoms, Kettle Ears, Saucepan Handles, Brass Cocks and other Supplies for Tinsmiths and Sheet Iron Workers.

STEEL LIST.

Prize Medals awarded to T. JOWITT & SON at the London and Paris Exhibitions.

We have been appointed Sole Agents for THOS. JOWITT & SON's celebrated STEEL, (as well as for their Files) and keep always on hand a large Stock of that and other approved Brands. We call attention to the extract on page 95 from the *Metal Trades Advertiser* of England.

Granted according to Act of Parliament.

T. JOWITT & SON'S STEEL.

Best Cast Steel, Flat, $\frac{3}{4}$ x $\frac{1}{4}$ to 6 x 2 in.

" " " Square, 3-16 in. to 4 in.

" " " Octagon, for Tools, $\frac{3}{8}$ to 2 in.

" " " " Miners Drills $\frac{3}{8}$ to 1 $\frac{1}{2}$ in.

" " " Oval, for Chisels, $\frac{3}{8}$ to 1 in.

Extra Temper Cast Steel for Axes.

" " Cast Steel for Scythes.

Common Cast Steel, Flat, Square and Octagon, assorted sizes.

Cast Steel for Nail Hammers.

Cast Steel Hammer Shapes to order; or as per illustrated Show Card.

Machinery Steel, Round, $\frac{3}{8}$ to 2 $\frac{1}{2}$ in.

" Cast Steel Extra sizes 3-16, 1-4, 5-16, 3-8, 7-16, 1-2, 9-16 in.

" " " " 2 $\frac{3}{4}$, 3, 3 $\frac{1}{2}$, 3 $\frac{3}{4}$, 4 in.

Machinery Cast Steel, Flat and Square, Strong, Tough and Fibrous, suitable for Hammers, Crow Bars, Mill Dogs, &c.

Spindle Cast Steel to order.

Second Quality Sheet Steel, No. 12 to 20 Wire Gauge.

Shovel Steel, best quality.

" " second "

Hoe Steel,

Spring Steel, good quality, all sizes from $\frac{1}{2} \times \frac{1}{2}$ to $4 \times \frac{1}{2}$ in.

Cast Steel Spring Steel, "T. Jowitt & Sons," Warranted extra quality
for Locomotive Springs and other special work.

Square Edge Steel for Tyres, all sizes.

Sleigh Shoe Steel, all sizes.

Toe Corking Steel, "

Steel Wire for Springs, all sizes to No. 24 Wire Gauge.

IMPORTED TO ORDER

Best Pivot Cast Steel to shape for Platform Scale Pivots.

Crinoline Steel Wire.

Three Square, Hexagon, Bevilled and Half Round Steels.

Bevilled Steel edge Cutter Die Steel for Leather Cutting Machine.

SEWING MACHINE STEEL.

Best Sheet Steel 16 to 18 in wide assorted thickness to No. 28 Gauge.

" " " in Strips—50 to 100 feet long by 3 to $3\frac{1}{2}$ in. wide from
No. 20 to 32 Gauge to order.

Round, Square and Flat Steel for Sewing Machine purposes, of various
qualities, &c.

SAFE STEEL

Welded Steel and Iron, for Safes and Shutters, in Sheets or in Bars,
to order. This Steel is made either soft Centre, the two outside plates
Steel and the middle plate Iron, or one side Steel and the other
Iron. To order.

*The attention of safe Makers and others is called to this article, which is made as
above will resist both the Drill and the Sledge Hammer of the Burglar.*

AGRICULTURAL STEELS.

Steel Finger Bars, Improved Hammered, to pattern or drawing, finished Straight and Smooth, &c.

These Finger Bars are a very superior article and finely finished.

Steel for Mowing Machine Knife Bars 3-4 x 5-16. Other sizes to order.

" Plough Plates, cut to any pattern or shape.

" Gang Plough Plates, " " "

" Horse Hoe Plates, " " "

Steel Cultivator Teeth, " " "

Plough Plate Steel, 12 to 14 in. wide by 3-16 and 1-4 in.

Cultivator Tooth Steel, 4 to 6, by 1-8 and 3-16 in.

Harrow Teeth Steel 1 by 1-2 and 1 by 5-8 in.

Cast Steel Horse Rake Teeth, rolled oval in lengths, to order.

" " Rake Tooth Wire any size in Bundles.

Steel Spring Wire all sizes.

Machinery Steel, Round, Flat and Square for Agricultural Machines.

Machinery Spring Steel, for Agricultural Machines.

Best Cast Steel, for reaper sections, cut to order.

Extra Best Cast Steel, for Scythes.

Shovel and Hoe Steel, various qualities.

CROW BARS. &c.

Solid Cast Steel Crow Bars, 12 to 28 lb.

Jumpers, Cold Chisels, &c., &c.

STEEL FORGINGS.

Piston Rods, Mandrel Bars, Slide Bars, Shafts, Connecting Rods, and every description of Steel Forging for Engineering purposes to any pattern to order.

These Forgings are recommended when great strength and lightness are required, being made of a quality of Steel specially adapted to this purpose.

NOTE,—“ In the extensive experiments lately made by Messrs. Robert Napier & Sons, Glasgow, on the Strength of Steel and Iron, one bar of T. Jowitt & Son's Cast Steel for Tools, bore, before breaking, a strain equal to 148, 294 lbs. per square inch, the greatest strain borne by any of the Steels tested ”—*Metal Trades Advertiser*
